

Join us at an upcoming open house

to learn more about the grid-scale
battery project in your area.

Debra McLellan, Project Manager
for the Grid-Scale Battery Project.

In June 2024, the grid-scale battery project received full project approval from the Nova Scotia Utility and Review Board. Since then, our team has been finalizing plans and construction is ramping up on site.

Grid-scale battery projects, like the one in your community, will help maintain reliable and safe energy delivery for customers throughout the clean energy transition.

Come chat with our team about the project, what to expect during construction, how this benefits the community - and more!

Can't make it? Email us your questions or comments at engage@nspower.ca.

Fairbanks Centre - Avery Room
54 Locks Road, Dartmouth, NS

Thursday, November 7th
3 pm - 7 pm (Drop-in event)
